ABOUT COMPANY

Sanokil is a company with a rich history in Australia, having been established over 25 years ago. What started as one man in a station wagon serving just the New South Wales, South Coast, has grown into a business with over 30 employees that services all capital cities and many rural areas across the nation. Despite our growth, we still maintain our humble beginnings and remain small enough to care, yet big enough to make an impact.

Our services include a wide range of first aid, washroom and sanitary solutions for businesses all over Australia. We take pride in providing discreet, safe and hygienic washroom services, ensuring that you can focus on your operations with the peace of mind that comes from knowing your business is in good hands. We maintain high standards in every washroom we service, so you can be sure that your business is being safeguarded at all times.

MILESTONE

1997 : Where it began

Sanokil started as a small business venture with one man providing services to businesses on the South Coast of NSW in a single station wagon. The owner worked tirelessly to ensure that his clients received the best possible service and was always willing to go the extra mile to ensure that his clients were satisfied with the work that he did. His hard work paid off, and soon his business began to grow.

2007: National expansion

In 2007, Sanokil embarked on an ambitious expansion plan to bring its top-notch sanitation services to customers in other states. The company's commitment to quality and excellence remained steadfast as it expanded. With a focus on providing safe and reliable sanitation solutions, Sanokil quickly became a trusted name in these states and continued to grow its customer base.
